Our company

We are an international sales representation and consulting company in the engineering and construction sectors, founded by **Jhonnatan Piedra and Gerard André.**

Within our broad portfolio of companies that we represent, collaborate with or have relationships with; you will find the following companies.

**Waste-to-Energy solution
provider**

CNTY EUROPE is one of the leading providers of waste-to-energy solutions in Europe.

Based in Belgium, CNTY EUROPE, on behalf of its parent company **CNTY**, invests in, designs, builds and operates waste-to-energy recovery facilities.

CNTY EUROPE also supplies grate, boiler and flue gas treatment equipment.

From equipment supplier to EPC contractor

BOILER MANUFACTURE AND ASSEMBLY

ENGINEERING AND **ASSEMBLY RÍAS BAJAS** **(IMRB)**

Engineering and Assembly Rías Bajas, S.A. (IMRB)
leading company in the industrial sector.
More than 30 years of experience in engineering,
manufacturing, assembly and maintenance of
industrial installations.

Services

- Industrial assemblies
- Industrial maintenance
- Fabrication

**Boiler manufacturing and
assembly**

Une entreprise du Groupe **GALILÉ**

AIT-STEIN imagines, designs, manufactures and installs turnkey solutions for energy optimization and recovery.

Today, **AIT-STEIN** is the only partner that masters the entire renewable energy value chain from end to end: from the manufacture and installation of sustainable industrial complexes to the creation of energy recovery units, including the treatment of air and combustion gases.

Boiler manufacturing and assembly

A private company firmly established in the international market of **engineering, manufacturing, supply and services** in the field of static equipment for O&G, chemistry, petrochemistry (urea, ammonia, methanol...) and power generation.

The scenario that **LOINTEK** occupies considers from the initial design of the project, in the feasibility study phase, to the technical assistance during the operation of the installation or system supplied.

**Specialization in
engineering and
manufacturing**

EKOMT, since its establishment in 2002, has been a reliable partner of customers in the market of assembly of power engineering equipment.

Ekomt Ltd. operates in the field of thermal energy in the following industries:

- Wood industry
- Petrochemical industry
- Packaging and paper industry, paper mills.
- Metallurgical industry
- Waste treatment

Smoke treatment, Boiler assembly

SICEM COOP a.r.l. (C.I. MON) is a Cooperative Society founded in 1983 on the initiative of a group of workers, mainly petrochemical plant maintenance workers, who over the years have implemented different specializations, incorporating them, expanding the fields of intervention and expanding the location of their intervention both in Italy and abroad.

Specialty in assembly

**EPC, turnkey, Piping, metal
structures, storage tanks...**

MECWIDE
ENGINEERING CHALLENGES

Founded in 2009, **Mecwide** is a benchmark in the provision of highly qualified services in the metallurgical industry sector.

Mecwide specializes in the design, construction and maintenance of industrial facilities and metal structures. Its main activities include custom engineering, the execution of complex turnkey projects, and maintenance (preventive, predictive and corrective). The company also manufactures structures such as pipe racks, tanks, boilers, furnaces, silos, and modular systems (SKID). It operates in sectors such as industry, energy, mining, oil and gas, as well as data centers.

Turnkey projects

Metron S.A. is an international contractor specializing in the gas, oil, energy and water markets. They offer EPC solutions for electromechanical installations and modular systems (skids) dedicated to the transport, treatment, and measurement of gases and liquids. They also operate in the fields of aviation and water treatment, respecting international standards. Founded in 1997, Metron operates in more than 40 countries.

Quality International is a leading global turnkey provider of total integrated solutions to the global energy and infrastructure market.

We are an ISO certified company with international accreditations, specializing in the design, engineering, procurement, manufacturing, testing, construction, fabrication and on-site installation of heavy engineering equipment, process modules and skids, reels and piping systems, external offshore structures and tank farms.

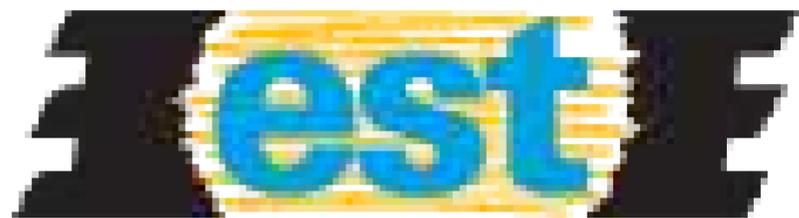

ELECTRICITY AND AUTOMATION

heimsall group

Heimsall Group is a Spanish business group that provides services in the areas of assembly, repair and maintenance of high and low voltage equipment and installations, automation, monitoring, control, pneumatics, industrial safety, mobility and other specialized services in energy efficiency.

Photovoltaic projects too

Since its creation on April 11, 1990, **EST** has guided its performance by respecting the standards of good practices and in the highest quality standards. Beyond the borders of Portugal, we are in Spain, Sweden, Denmark, Angola, Colombia and Uruguay.

EST, as a service provider in the field of electricity, is active in the industrial electricity sub-sector. With a set of resources and a highly specialized organization, EST offers its customers all the services necessary for the use, supervision, control and monitoring of electrical installations.

BOFFETTI

ALWAYS POWER AHEAD

BOFFETTI has been contributing to the success of its customers since 1982. It operates in the sectors of high, medium, and low voltage electrical systems, as well as in the development of networks for public services, industries, and infrastructures.

BOFFETTI designs, manufactures, and supplies innovative products, technologies, and high-quality solutions for electricity distribution, facility management, and integration into modern smart grids.

VARIOUS INDUSTRIAL ACTIVITIES

Brown Fintube France Energy is a leader in the field of heat exchange and offers top-quality products.

Since 1961, the company has maintained a single goal: customer satisfaction.

Its extensive experience in thermal calculations has reinforced its reputation in the industry.

Its experts are available to provide advice on heat exchangers.

**Design and Manufacture of
Heat Exchangers**

Applied Energy Engineering Solutions S.L. (SIEA) is specialized in projects related to the energy sector, particularly in thermal and/or electrical energy. The company's activities range from specialized energy consultancy to the construction of energy production facilities under a "turnkey" modality.

**Boilermaking and
combustion systems**

GRUPOampere
Fivemasa

Since 1980, **FIVEMASA** has been manufacturing customized solutions for the control of environmental pollution in all types of industries.

FIVEMASA provides the best solution to the client to respect the environment and guarantee compliance with the strictest regulations.

Smoke treatment

Founded in 1979, **Catari** specializes in the development, production and marketing of scaffolding systems and collective protection equipment.

With an incisive approach in offering innovative solutions, both in terms of products and performance, **Catari** adapts dynamically to market requirements and the specificities of its customers.

**Manufacture and marketing
of scaffolding**

INOXMONT-VS doo is a company founded in 2008 in Ludbreg, and was born from the association of several companies with more than 20 years of international experience. The company currently has 230 employees and offers the following services:

- Assembly of industrial installations and equipment.
- Prefabrication and assembly of machine parts with stainless steel equipment and other materials.
- Production, assembly and installation of steel industrial process equipment.
- Prefabrication and assembly of steel containers.

**Prefabrication and assembly
of steel equipment**

BEND AND WELD TECHNOLOGIES

CURVASTUR S.L. is specialized in the manufacture and repair of all types of pressure parts used in steam generators of industrial, energy and/or petrochemical installations, as well as in the design, advice and technical assistance for the repair and maintenance of these components.

CURVASTUR S.L. It has 3,000 m² of workshops perfectly equipped for the development of its work in Gijón (Asturias), in the north of Spain.

Manufacture of pressure parts

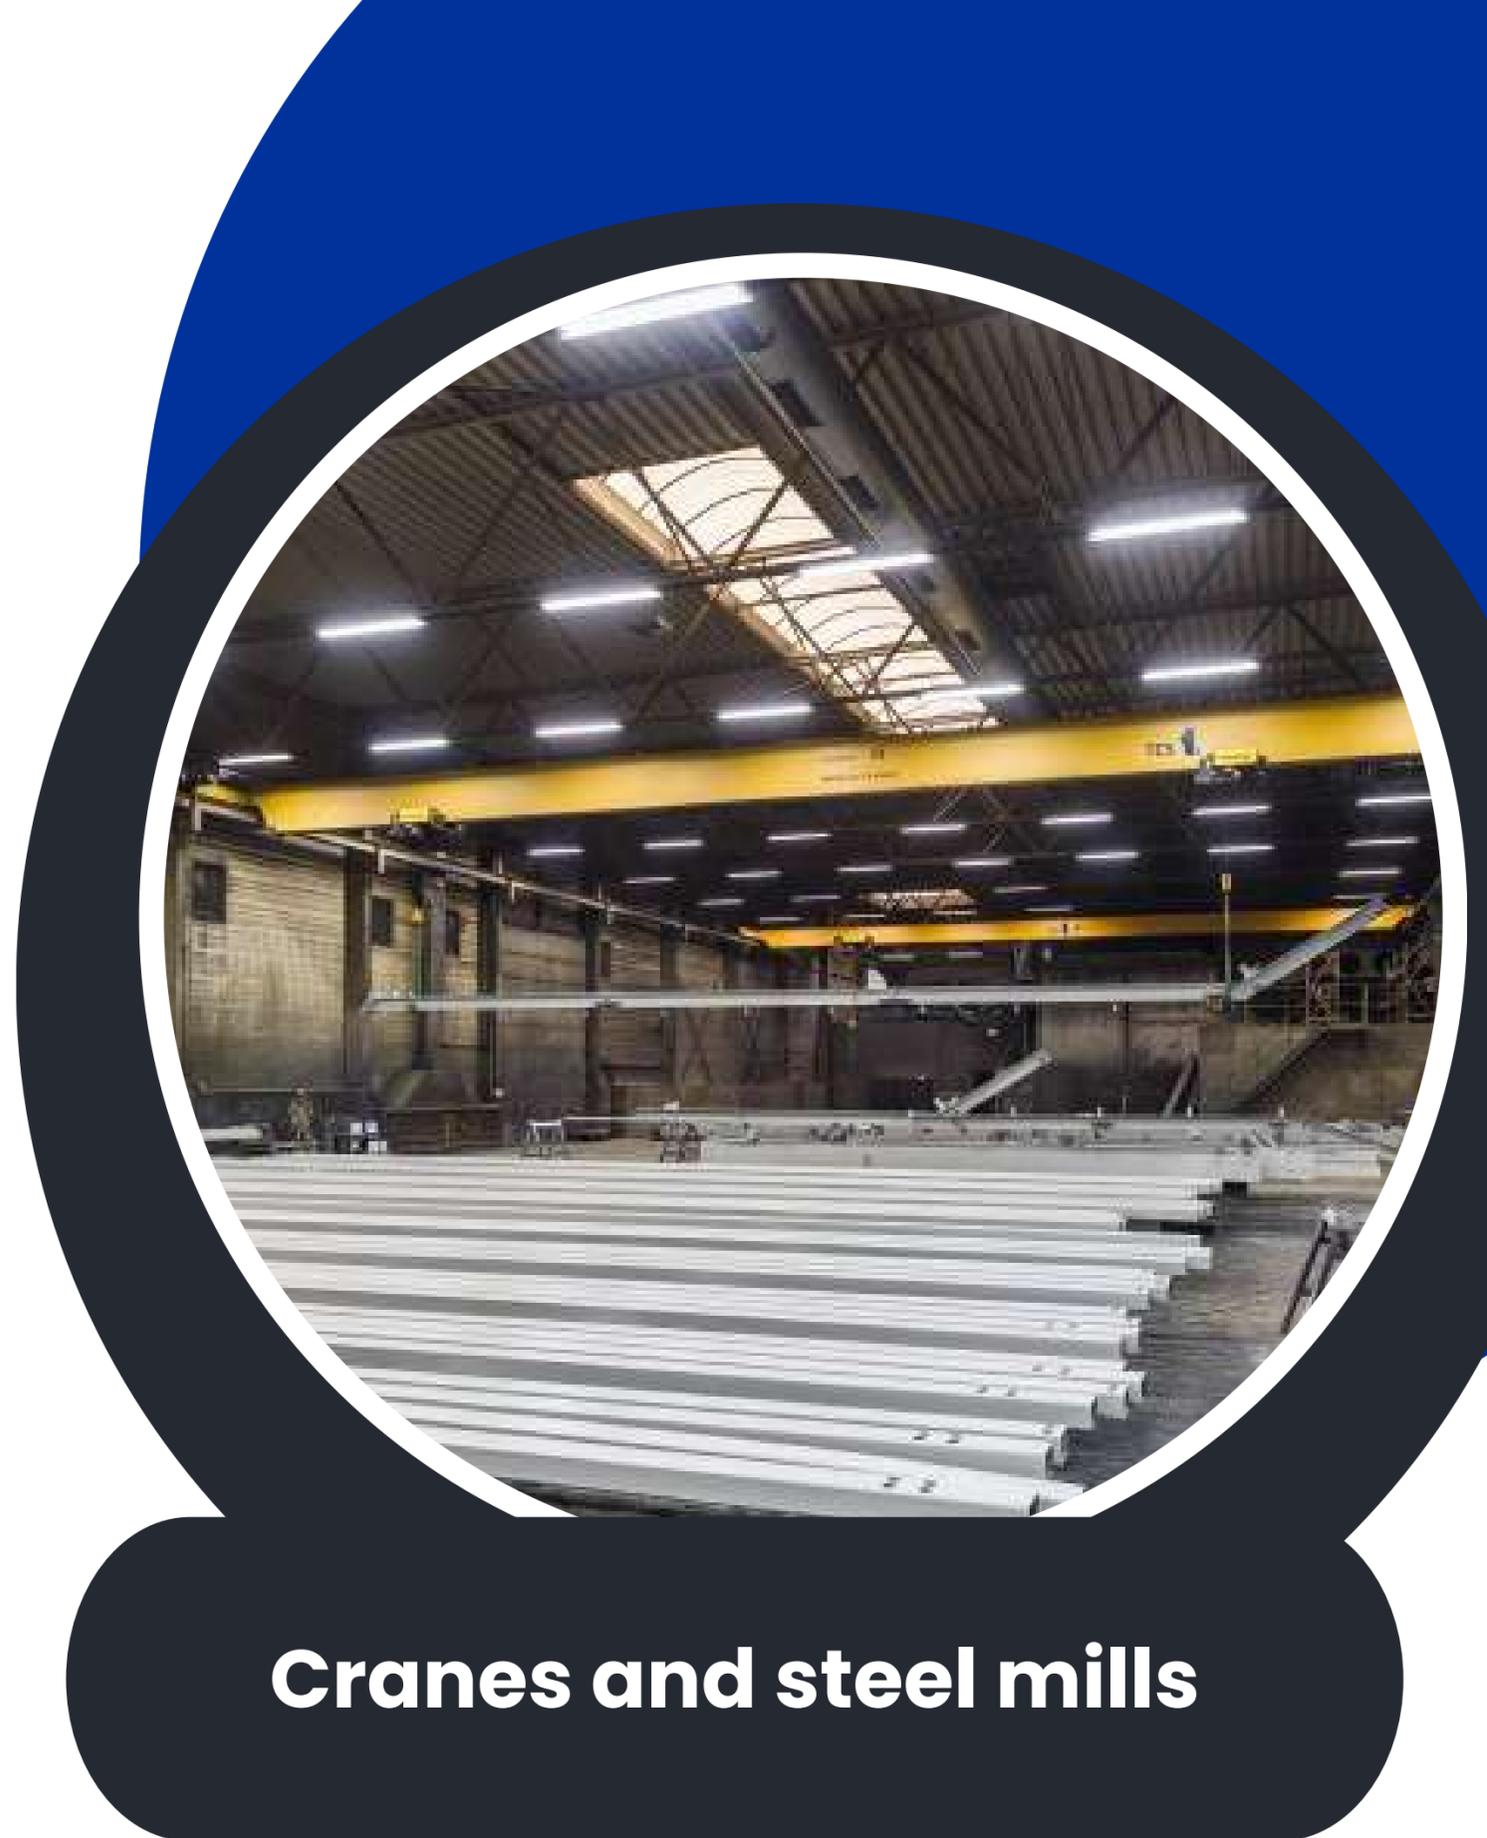

Solutions

Cranes: Consulting, design, manufacturing, installation and maintenance.

Steelworks: Design, engineering, manufacturing and assembly of steel structures.

Turnkey projects: Construction and industrial rehabilitation projects from A to Z.

Tips and best practices: Guidelines on best practices related to overhead and gantry cranes, steel construction and turnkey industrial projects.

Cranes and steel mills

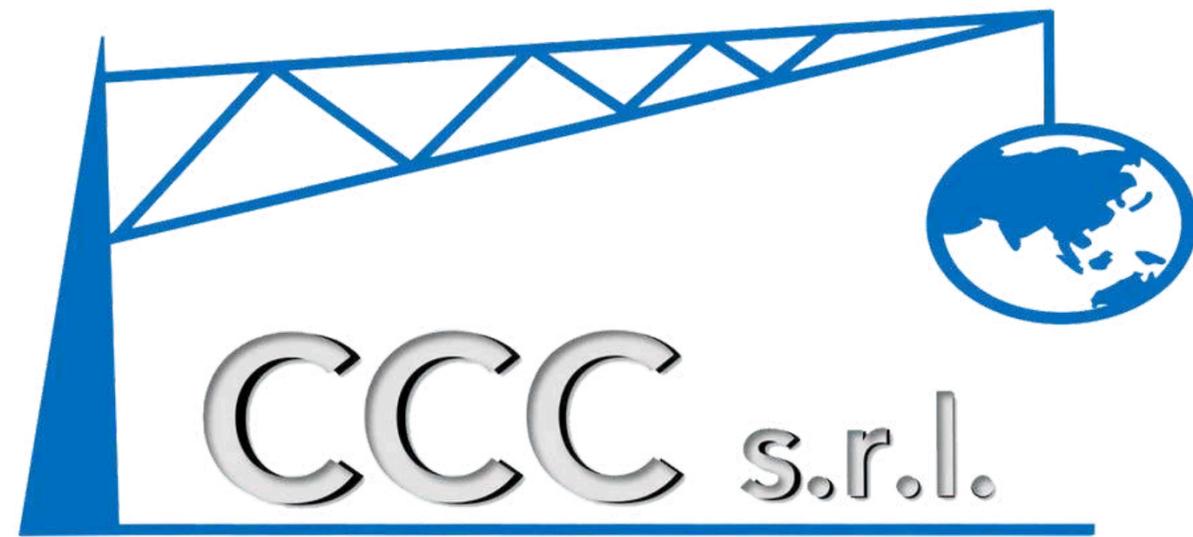

Sarens is a world leader and reference in crane rental, heavy lifting and engineering transport.

Sarens is driven by the noble mission of being the benchmark in crane hire, heavy lifting and engineering transport for our customers.

With state-of-the-art equipment and value engineering, Sarens offers our customers creative and intelligent solutions to today's challenges in technical transport and heavy lifting.

CRANES

CCC Srl, a leading company in the crane lifting sector in the province of Genoa, offers high-level engineering expertise and a complete range of tailor-made services to its customers throughout Italy.

MAIN SERVICES:

- Heavy lifting
- Industrial handling
- Rental of lifting machines
- Lifting engineering study and design

Lifting and logistics services company in Italy and abroad

CRANES

Manutenzioni Montaggi e Programmazioni Srl (acronym MMPSrl) was founded in July 2003 and its management is composed of people with extensive experience in the engineering field, for activities carried out both in Italy and in the rest of Europe.

MMP IS SPECIALIZED IN:

- Hot work: prefabrication and assembly
- Cold work: maintenance and scaffolding
- Bolt Tension - Maintenance

Global maintenance services company

Specialty in Industrial Maintenance

PACA Services Industriels (PSI) offers Global Services contracts to reduce maintenance costs and enhance the efficiency of industrial installations. These multi-professional contracts simplify procedures and ensure streamlined communication through a single point of contact.

PSI provides maintenance services for industrial machinery, ensuring its proper functioning. Additionally, it supplies spare parts and consumables for industrial installations.

Industrial Maintenance

REFRIGERATION AND AIR CONDITIONING.

With over 22 years of experience, the **FCA Group** has solid expertise in the fields of refrigeration, heating, ventilation and air conditioning.

Their perfect mastery of energy techniques, proximity to our customers, the availability and responsiveness of our teams allow us to offer you innovative, economical, reliable and environmentally friendly solutions.

**Presence in the
construction sector with:**

Grow Engineering is a multinational company operating in the construction and engineering sectors.

Its differentiation strategy is based on the use of the most modern production processes, combined with a superior level of quality. The company guarantees special attention to detail, meets deadlines, and consistently focuses on total customer satisfaction.

It is part of **IBG - International Business Group**, a corporate group that brings together various companies and brands in the construction, real estate, services, and industry sectors.

IBG (International Business Group) is a multinational holding that operates in complementary business sectors. We manage a wide portfolio of companies, creating value across the different markets where we are present.

From product transformation to turnkey solutions, we aggregate several businesses and brands in the Construction, Coatings, Real estate promotion, Industry and Services sectors.

Neimar Engineering Company is specialized for full scale design, complex engineering, contracting, constructional and financial activities.

In 1986, in accordance with applicable laws, was founded small enterprise "Neimar". Two years later, in accordance with the changed legislation, was re-registered in the company "Neimar Engineering" based in Podgorica, since when it has been successfully caring out construction tasks on local and international market.

**We work with temporary
employment agencies**

Proman is a French recruitment agency offering temporary employment opportunities (interim), fixed-term employment opportunities (CDD) and permanent employment opportunities (CDI). They serve various industries including logistics, construction, manufacturing, etc. Proman focuses on connecting candidates with companies while supporting them throughout the hiring process.

Yo Interim specializes in the recruitment and integration of qualified European personnel in the high-demand professions of French industry. Yo Interim offers a tailored response to your human resources requests. Based in the Pays de la Loire, we remain close to the infrastructures and companies with which we collaborate in order to provide a workforce adapted to your needs in the short, medium and long term.

We are also sales agents:

An interior design specialized showroom for various applications, including home, office, commercial, hotel, shopping malls, etc.

As an authorized supplier; **Stella** is a specialized seller of various types of stone, especially marble - various types of ceramics and porcelain in various sizes - carpets and rugs - sanitary ware - custom furniture - etc. with the best quality and competitive prices

Sales agents

Seraset is a brand created in 2016 by Padideh Tejarat Shakiba Cooperative Company, a company founded in 2006 specializing in construction materials, particularly high-quality ceramics and sanitary ware. Its founders have been in the industry since the 1980s and have been pioneers in the sector, combining advanced technology, innovation, and premium materials to offer exclusive and sophisticated designs.

Sales agents

DPOL

The **DPOL** is a mobile, autonomous device designed by **Ekkopol** to clean ports and waterways of floating contaminants, including oil and waste. It operates 24 hours a day, creating surface currents that collect and store pollutants in a suitable network.

This equipment is easy to maintain, economical and can be purchased or rented according to the needs of the port. Its simple and efficient design allows it to be used even in the smallest ports. More information on Ekkopol.

Sales agents

Wearpro Collection is a family business on a human scale that supports you on a daily basis to offer you affordable and quality professional clothing.

Based in Aubagne, they support passionate professionals on a daily basis, such as: Bakers, cooks and hoteliers. Professional clothing allows you to assert your company's identity, promote your brand and protect your employees.

eXp Realty is a global, cloud-based real estate brokerage company, part of eXp World Holdings, Inc. (NASDAQ: EXPI), distinguished by its innovative technology approach, offering a fully virtual platform for real estate agents.

This allows for geographical flexibility and reduced operational costs. Currently, it operates in over 24 countries, facilitating residential and commercial real estate transactions.

**Real Estate Agents and
Team Recruiters**

Enagic®

European
Union

Enagic International is a Japanese company founded in 1974, renowned for its innovative water ionization technology. Its flagship product is Kangen Water®, a range of purification and ionization systems that produce alkaline water with antioxidant properties. These systems are designed to improve the quality of drinking water in homes and businesses, promoting health and well-being on a global scale.

**Sales agents and team
recruiters**

Renewable Energy Specialists

EnergyLife's team consists of technicians specialized in renewable energy, with extensive experience in the sector.

Its goal is to achieve sustainable energy independence, helping individuals and businesses preserve and care for the environment by generating their own energy.

Sales agents

OPTICAL FIBER (other fields)

Collaborating Company in Africa

AXIONPAY

AxionPay is a holding company composed of several companies operating in various fields, such as fiber optics, ICT, finance, human resources, real estate and many others.

The company's headquarters are in Burkina Faso.

Collaborating Company in Africa

OFIBER is a company specialized in the design, installation and maintenance of fiber optic communication networks.

Collaborating Company in Africa

Fiber iTech is a leading company in the design, installation and maintenance of fiber optic communication networks.

It offers advanced solutions for the design, implementation and management of fiber optic infrastructures.

Collaborating Company in Africa

PREMIUM COMPANY SA

best for ever

Premium Company SA is a leading consulting firm for those who wish to not only achieve, but also exceed their business objectives.

With a personalized approach and a global perspective, he offers detailed analysis and tailor-made strategies for all phases of a project.
